Allegro

collection

The Allegro parquet collection is much like an exquisite dance of colors and patterns, each board is perfectly choreographed. Each piece of wood, with its unique grain and tone, interlocks in harmonious precision, creating intricate mosaics that echo the fluid movements. These patterns do not just lay flat; they play with light and shadow, giving life and movement in every room.

The hues range from the deep, resonant sienna to the soft, subtle essence color. This assortment of colors and textures plays together in harmony, creating a dynamic yet unified aesthetic. Each interaction with the floor evokes a sense of elegance and artistry, turning everyday living spaces into stage design to elevate ordinary into extraordinary.

Large board size (194mm width, 2283mm length) and T-lock locking system makes installation simple and fast. Brushed and matt lacquered surface accentuates the natural character of the wood.
